SEND Accessibility Plan September 2025 – September 2027

Updated September 2025

Purpose of Plan

The purpose of this plan is to show how our educational setting intends, over time, to increase and maintain accessibility to the physical environment, the curriculum and written information so that all pupils with a disability can take full advantage of their education and associated opportunities.

Definition of disability

A person has a disability if they have a physical or mental impairment that has a substantial and long-term adverse effect on their ability to carry out normal day-to-day activities.

Key aims:

To ensure pupils with a disability have total access to our setting's environment, curriculum and information and full participation in the school community.

Principles

- Compliance with the Equality Act is consistent with our setting's Equal Opportunities Policy and SEN Information Report
- Our staff recognise their duty under the Equality Act:
- Not to discriminate against disabled pupils in their admissions and exclusions, and provision or education and associated services
- Not to treat disabled pupils less favourably
- To take reasonable steps to avoid putting disabled pupils at a substantial disadvantage
- To publish an accessibility plan
- In performing their duties, Hub Councillors have regard to the Equality Act 2010

Our setting:

- Recognises and values the young person's knowledge / parents' knowledge of their child's disability
- Recognises the effect their disability has on his/her ability to carry out activities
- Respects the parent's and child's right to confidentiality
- Our setting provides all pupils with a broad and balanced curriculum that is differentiated, personalised and age appropriate

Increasing access for disabled pupils to the school curriculum

- Our school curriculum is designed in an inclusive manner whereby all pupils can access the learning at their own level
- All school visits are planned with individual needs in mind and support is put in place to ensure all pupils can access
- Where challenges are identified, support from relevant agencies are sought to adapt the curriculum or premises as required

Improving access to the physical environment of the school

• Involvement from external agencies and the Aspire premises team support to ensure the physical environment matches the needs of the pupils where possible.

Improving the delivery of written information to disabled pupils

- Support from relevant agencies will advise as to the most appropriate methods to support our pupils, on a case-by-case basis.
- Letters for parents are available online and also emailed out to them directly. Paper copies are available on request. Social media is used to communicate key information also. If we became aware that parents may not be accessing information readily, verbal communication is used effectively.

Financial Planning and control

The Head of School and SLT review the financial implications of the accessibility plan as part of the normal budget review process
